

NewGlove Brand

Your trusted partner in global manufacturing.

With over 20 years' experience in the glove industry, our directors have a profound knowledge in the development and manufacture of nitrile, latex and vinyl gloves.

We will leverage this experience to deliver tailored solutions that meet your personal protection needs, Prioritising ultimate hygiene, NewGlove products are crafted, inspected and packaged without skin contact.

When you see the NewGlove logo, you can trust you're taking every precaution to protect yourself and your clients.

We've got working hands covered.

What makes us a great partner for you.

As a global distributor of NewGlove Brand, we have established successful partnerships in many countries.

Even so, we are excited to expand our networks and distributions further so that NewGlove gloves are made available in every country.

As a professional, you are passionate about the health and comfort of staff and your clients.

At NewGlove we are equally passionate about your business.
